## **University of Georgia Department of Genetics**

## Application for GENE Research Course Approval with a Genetics Faculty Sponsor

**Instructions:** All students who wish to register for a supervised research course with a Genetics faculty member must return this form to the Undergraduate Coordinator's Office, B107 Davison Life Sciences, one day before the last day of the Drop/Add period in the semester in which the research will be completed.

**Note:** Use this form only if you are doing research under the supervision of a faculty member who is either a regular or adjunct member of the Department of Genetics (see the Department of Genetics website for a list).
